

Simple and efficient is the name of the game when it comes to our technology offerings. You get outcome driven HR Tools designed to fit the way you work.

Integrating the Justifacts background screening process allows users the ability to seamlessly request and manage background checks and other screening services that help bring in new talent faster!

ATS Integrations

Seamlessly request and manage background checks and other employment screening services from over 20 popular ATS recruiting interfaces.

Don't see your system listed? Justifacts' in-house technology department is more than happy to discuss integrations with any system – *usually at no additional costs.*

Turnaround Time

Clients benefit from the reduced turnaround times and system simplicity that integrating with ATS/HRIS with Justifacts background screening services offers.

Candidate data seamlessly transfers from your system to ours. Reducing the need for candidate data entry and enhancing the candidate experience.
